

About DriveTime

DriveTime is a unique company that is unlike most typical car dealers. We treat our customers with the professionalism and respect that they deserve when they walk into a dealership. Instead of avoiding people with poor credit, we specialize in financing them for used cars that they are proud to drive. We make this possible by doing 99% of all of our own financing for our customers. This allows us to consider financial aspects that a normal bank or lender would not even look at. All of our Arizona DriveTime stores offer financing on the purchase of your used car and we can almost guarantee that you will be approved!

Being both a finance company and a used car dealer are not the only things that make us different from most other car dealerships. At our Arizona DriveTime locations, we pride ourselves on having a friendly, knowledgeable staff that makes our stores feel welcoming to each and every customer. When you experience the DriveTime difference, you will feel like you are part of a family that is there for you every step of the way. We do not push you away because you have had a history of poor credit, but instead we encourage you to make your future financial situation better by selecting a vehicle that fits your lifestyle.

With several different locations carrying used cars, Arizona DriveTime has a nice selection of high quality vehicles to offer our customers. We know how important quality vehicles are to people, which is why we perform a 53-point inspection on every car before they even arrive at our dealerships. Each car also comes with a standard DriveCare® Limited Warranty when you purchase the vehicle. This is our way of showing you that we have confidence in the used cars that we sell and that you shouldn't worry about the condition of the car. Each used car Arizona DriveTime locations sell is of the highest quality and our customers can have comfort knowing their vehicle is safe and reliable.
